EXPERIENCE

Software Developer Intern

Runtastic GmbH

07/2021 - 11/2021

- Learned about and maintained the legacy platform (Ember.js, Ruby)
- Added sport samples querying functionality to the new admin panel which uses a custom build of TypeScript Next.js and Adidas Design Language
- Integrated Contentful headless CMS to the new web platform using Next.js as the client-side technology

Software Developer Intern

Devatailor OÜ

03/2021 - 05/2021

- Completed Angular and Flutter courses on Udemy as part of the onboarding plan
- Developed an application using Angular to showcase custom orders to clients for a sports clothes company called Trimtex

Web Developer

Aschl Management Systems

11/2020 - 01/2021

- Used Skeleton boilerplate along with HTML, CSS and JavaScript to create a new look for the website
- Integrated the new solution with the existing WordPress application
- Developed a Node.js server for SendGrid email functionality

CERTIFICATES

OLS English C1

08/2020 - Present

DELFI Scolaire B2

05/2018 - Present

SUMMARY

Having built full-stack applications both during internships and school projects, I have experience in .NET Core, Node.js, Angular, Next.js, for back- and front-end respectively.

SKILLS

.NET Core

Next.js

TypeScript/JavaScript

Angular
